

**The reality of our world unfolds** before us as we continue journeying through the Congregation with a study of both the General Report and Economic Report presented by the General Government. The diminishment of membership and the diversity of mission, new creative ways to keep alive the Charism of the Congregation is what we are faced with. We thank God for the road travelled through the past six years The Hope is, that the search continues... for ever newer expressions of making our world a better place to live in.

Sr. Catherine Lloyd RSCJ our Facilitator invited us to look at the **“Emerging Future”** with the words - The seeds of the future are in our present. Indeed our future as Congregation is emerging from this present moment in the choices we make. Against this backdrop we reflected, prayed and shared in our Faith Sharing groups and mixed language groups, discussed and identified the echoes and resonances of our hearts and listened to those **still small voices** that are also emerging. We feel the process is evolving... we are ever journeying into the unknown, but surely little by little forming the Chapter Body - representative of the Congregation at large.

The joy and trust, the simplicity and transparency, the freedom and letting go, the openness and genuine desire

to be one, is helping us move from where we are to where the Lord wants us to be.

We present here a few images from inside the Chaper Hall.
