

World Day for Missions- We are back after four intense days... of listening, feeling, deepening, ... the Process continues as we search together for answers-
Who is God calling us to BE?
What is God calling us to DO?

The listening to realities as shared in the different provinces across the JM world has been touching and sometimes painful... Restructuring, Reconstruction, new ways of Ministries

and the experiences of some Provinces that have lived this reality is what moved our hearts.

Each Province has a definite and urgent need... each province is seeking that “Newness” which will give Hope and meaning to our being RJMs. What we are left with today is this HOPE that springs forth from the Response of Today: ***“God is with us.”*** God is with us in our History... which has been enriching and yet painful...

God is with us in our Present which is “lights and shadows” and yet evolving... God is with us in the Future that is emerging and Hopeful.

And so as we continue in this searching for meaning in our realities, we ask you to continue storming heavens... and join in the waiting for *the New Life* to be born. “The Spirit who guided the beginnings of the Congregation continues today, through the same charismatic

grace to well up a life that is ever renewed.”C 12. ***Pray for us... in these days of seaching for new structures that will being life to all.***
